## **DETAILED ACTION**

### ***Allowable Subject Matter***

**Claims 1-37 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As to claims 1, 14, and 28, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method and apparatus comprising a sensor array that employs a parameter to induce a time-varying phase angle on an optical signal that comprises a phase generated carrier with a demodulation phase offset, this method and apparatus using a processor that calculates the phase angle substantially independently of the demodulation phase offset, in combination with the rest of the limitations of the above claims. For further reasoning, please see the applicant's arguments to the previous Office Action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J. Toatley can be reached on 571-272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
